

Test Candidate Two

ML Engineer — NLP, RAG, Vector Search

Summary

Applied ML engineer focused on LLM and RAG pipelines. Strong with sentence-transformers, FAISS, and LangChain. Has shipped production retrieval systems at scale.

Skills

Python, PyTorch, Hugging Face Transformers, sentence-transformers, FAISS, LangChain, LLM, RAG, NLP, FastAPI, Docker, AWS, pandas, numpy, scikit-learn

Experience

- DemoAI Labs — ML Engineer (2022–2025). Built a RAG-based support assistant with FAISS over 2M docs. Embeddings via all-MiniLM-L6-v2; served behind FastAPI.
- PriorCorp — Data Scientist (2020–2022). Sentiment analysis on 10M reviews; deployed via Flask + Docker.

Education

M.S. Data Science, Demo Tech University, 2020.
